Mechanisms to request technical assistance

1. TCP: Technical Cooperation Programme
2. UTF: Unilateral Trust Fund Programme
1. GCP: Government Cooperative Programme

1. Technical Cooperation Programme

- The TCP aims to provide FAO's technical expertise to its Members through targeted, short-term, catalytic and sustainable projects.
- At country level, TCP assistance should contribute to one or more country priorities as expressed in the Country Programming Framework (CPF).
- At sub-regional, regional and interregional levels TCP assistance should be aligned to the Strategic Framework, regional priorities and/or initiatives as expressed in Regional Conferences, regional technical commissions, and other relevant political processes and agreements.

1. Technical Cooperation Programme

- The budget is part of the Organization's Regular Programme.
- There are FAO contact points in each competent authority.
- They can contact the FAO national office.

2. Unilateral Trust Fund Programme

- UTF projects are fully funded by the beneficiary countries themselves, either from national resources or from the proceeds of loans, credits and grants made available by international financing institutions or bilateral donors.

3. Government Cooperative Programme

- The GCP represents a financing modality under which a donor government or a financing institution entrusts funds to FAO for the provision of technical assistance services, including policy advice and training, to a specific developing country or region(s).
